WITHDRAWAL OF COAL LEASE APPLICATIONS, UTAH RESOURCES INTERNATIONAL, INC *AP*

Utah Resources International, Inc., has filed with this office 39 applications for coal leases covering 67,001.37 acres in the central portion of the Uintah Basin. The lands covered by these applications include most of the State lands from which oil and gas are presently being produced in the Uintah Basin and also include State lands containing the best oil shale deposits now in State ownership.

Mr. Morgan had indicated that it was his intention to try to develop some type of cooperative agreement with other State lessees to develop these lands. By letter of May 25, 1979, Mr. Morgan has indicated that he has been unable to affect any such agreement; and, therefore, he is requesting that the applications listed below be withdrawn; therefore, upon recommendation of Mr. Blake, the Director approved the withdrawal of these Coal lease applications; the rental deposits refunded to Utah Resources International, Inc., and the filing fees forfeited to the State of Utah.

The applications are as follows.
